**Indian Association of Secretaries and Administrative Professionals**

**June Monthly Session**

Most of us, women, share a common language. No matter what our culture, what our background, we can understand each other. The role of women in the world is being taken seriously as the solution to the economic, ecological and social crises of today. A new day is here where the role of women as knitters and weavers mends divisions and brings meaningful connections. Women story-tellers proclaim the good news and inspire others to know we are enough to make a difference. Women as nurturers love people of all ages into becoming their best selves. Women with their mother bear courage say enough is enough to all forms of oppression. Women as care-takers and entrepreneurs bring peace and sustainability to their families, communities and the planet.

Together we are enough to co-create a better world and it is happening now.

We have invited Jyothi Menon Director, HR at Credit Suisse and heads HR Service Center based in Pune, who has a vast knowledge to share on the Role of Women in Today's Scenario
