October 2015

Dear Members,

All life is energy - currents of force that mix and blend to form the patterns of our lives. There's a constant interest in good psychics in the recent years for *tarot card reading* mostly by people looking for mental and spiritual well-being. We humans are curious by nature and are drawn to spiritualism and divination. We would love to know what the future holds for us and would need guidance in our day to day activities.

This month we have invited Mrs Jeffrina Udachia who is naturally drawn towards the art of Divination and started practicing Tarot since the age of 17. After Graduation did a few office jobs and also flew with an airline for many years. "Rise Your Soul" was a result of her desire to use her ability to read Tarot Cards and help bring to surface useful information from ones subconscious mind and help one in their journey. Also a higher purpose which involves being of service to humanity in some shape or form.

So ladies, we are sure you are all excited about Tarot reading, so be there and lets have some exciting time together.
